

COMMERCIAL CLEANING PUBS, CLUBS & HOSPITALITY

REDCLEAN understands that keeping your pub & restaurants clean is a daily task that requires fastidious cleaners committed to delivering a reliable, quality service with a focus on attention to detail.

REDCLEANS cleaners are trained to deliver the best possible result for you & are supported by our head office team including an Operations Manager who is contactable 24/7.

We understand that your facilities take a beating 7 days a week – carpets get soiled and bathrooms in continual use need a thorough clean. We also know that you may often call on us for an emergency clean at the last minute.

*Pubs and Clubs are an integral part of our community and **REDCLEANS** business*

The scope of Redclean's operation means that besides maintaining amenities, we have the capacity to provide the following additional services:

- Carpet cleaning
- Graffiti removal
- Pressure cleaning
- Exterior blow/vac and car park cleaning using industrial ride-on sweepers.
- Tree trimming, high-rise cobweb removal
- Window cleaning

What **REDCLEANS** clients say:

"I can stress less at night knowing that the club will be presented to our members and guests in a consistent and high level of cleanliness each day. By having Redclean managing my cleaning schedule, it allows me to focus on more important parts of our business. I am glad I made the switch 3 years ago"

Ben Johnston Operations Manager Mona Vale Golf Club July 2012
